Product Announcement Information Sheet

Product Name	Bluetooth Calculator Keypad
Model Number	VP6272
Part Number	KUX0102-1004F
UPC Code	 7 15262 06272 6
Dimensions/Weight per Single Package	9.5 x 5.3 x 1.6 inch; 9.8 oz 242 x 134 x 41 mm; 277g
Dimensions/Weight per Inner Carton	9.8 x 9.7 x 5.7 inch; 4.1 lb 248 x 246 x 145 mm; 1.86 kg
Quantities per Inner Carton	6 units per inner carton
Dimensions/Weight per Master Carton	20.3 x 10.2 x 12.5 inch; 17.7 lb 515 x 260 x 317 mm; 8.04 kg
Quantities per Master Carton	4 inner cartons per master carton Total: 24 units per master carton
Suggested Retail Price	US\$59.99
Availability	January 15, 2010

PRODUCT DESCRIPTIONS

Short Description – 25 Words

- The Bluetooth Calculator Keypad is an innovative 2-in-1 device supporting Bluetooth wireless ten-key and standalone calculator functions with 100% compatibility to Mac and Windows OS.

Standard Description – 50 Words

- The Bluetooth Calculator Keypad increases productivity for notebook users. This Bluetooth numeric keypad combines the functions of a ten-key for spreadsheet data entry and a standalone calculator for maximum productivity. The VP6272 features an on/off switch, 12-digit LCD display, Mac/PC OS selector switch and Bluetooth transmission up to 33-foot / 10-meter.

Long Description – 100 Words

- The VP6272 Bluetooth Calculator Keypad increases productivity for notebook users. This Bluetooth numeric keypad combines the functions of a ten-key for spreadsheet data entry and a standalone calculator for the ultimate convenience. The VP6272 features an on/off switch, 12-digit LCD display and OS selector switch for 100% Mac/Windows compatibility. A built-in SEND key sends the calculated result directly into a spreadsheet to eliminate typing errors. No need to carry a receiver dongle when used with a Bluetooth system, the device offers Bluetooth transmission range up to 33 foot / 10-meter. Carry the 2-in-1 Bluetooth Calculator Keypad and travel light.

FEATURES AND BENEFITS

Built-in Fully Functional Calculator

- The embedded off-line calculator function means one less device to clutter the desktop and less weight in your computer carrying case.
- The built-in 12 digit LCD display provides visualization for the calculation functions.
- The one-touch SEND key ensures the calculated result is correctly transcribed to the spreadsheet without having to rekey-in the numbers, therefore eliminating potential data entry errors.

The Most User-friendly 10-key Calculator Keypad Available Today

- Unlike the traditional keypads with confusing NumLock key and second layer of command keys, the VP6273 provides unique straight forward numeric data entry without complicating the applications with NumLock functions.
- Users for the other calculator keypads have to remember toggling between “NumLock On” and “NumLock Off” all the while trying to maintain

“NumLock Off” on their notebook computer’s keyboard. The VP6272 always works in numeric mode so that the notebook computer can stay in Alphabet mode.

- Effective power management features:
 - On/off switch prevents power-loss when traveling.
 - Sleep mode with one-touch wake-up feature to preserve battery power.
 - Power-low LED indicator light alerts you when to replace batteries.

Fully Compatible with Mac and Windows OS

- With the ease of a touch, a built-in OS selector switch allows user to select, and switch, between Mac and Windows Modes.
- No need to install drivers, the VP6272 is the only numeric keypad that’s 100% compatible with both Mac and Windows OS, thus allowing Mac users to switch between the 2 operating systems without losing any functions.

Built-in Bluetooth Technology for the Ultimate Wireless Experience

- Featuring Bluetooth Class 2 for up to 33-foot / 10-meter of wireless data transmission range.
- Simple process to connect to the Bluetooth host computer; no need to install software. Once connection is established, it stays connected to the host even after power-off.
- The VP6272 is one of the most practical accessories for Bluetooth notebook computers. As the majority of notebooks do not offer a ten-key in the built-in keyboard, numeric data entry becomes a challenge, especially for finance and accounting professionals. The VP6272 not only provides an effortless way to enter numbers, it also replaces the traditional calculator so that only one device is needed. The VP6272 Bluetooth Calculator Keypad is truly the most desirable companion for a Bluetooth notebook computer.

Additional Opportunities with SMK-Link Bluetooth Products

Opportunities to Upgrade Your Notebook Accessories to Bluetooth

- Other SMK-Link and Interlink-branded Bluetooth devices offered by SMK-Link, working seamlessly with any Bluetooth computers, are the VP6150 and VP6151 Rechargeable Bluetooth Notebook Mouse.
- Also available is the VP4570 Bluetooth Stopwatch Presenter, designed to be 100% compatible with PowerPoint. The Mac version, the VP4571 Bluetooth Stopwatch Presenter for Mac, supports Apple’s Keynote presentation. Both products do not require installing a software driver.
- The VP6494 Nano Bluetooth Class 2 Dongle provides the easiest and most economical way to upgrade a PC to Bluetooth-enabled system.

SPECIFICATIONS

Product Specifications

- Broadcom Bluetooth v2.1 with EDR (Enhanced Data Rate)
- Class 2 supports up to 33 feet/10 meters operating range
- Computer keypad with built-in calculator function and 12-digit LCD display
