Features & Benefits

Washable Keyboard Meets the Highest IP Standard

- Completely sealed keyboard meets IP68 standard, ideal for hospital, medical clinic and dental office environment.
- High-grade silicon rubber finish offers industrial-strength waterproof and dustproof protection.
- Attached connector cap protects the gold-tip USB connector from rusting and eroding.

Built-in Convenience Features for the Keyboard

- The keyboard features LED back-lit keys with adjustable brightness--ideal for dark room operations.
- Integrated joystick and 2 mouse clicks provide cursor control and mousing capability for the all-in-one convenience.

- Built-in power on/off key allows the keyboard to shut off while being wiped down to prevent erroneous data entry.

Included Waterproof Mouse Offers Wireless Freedom

- A matching wireless mouse designed with 30-foot range 2.4GHz radio frequency technology allows pointing and clicking from anywhere in the room.
- Factory pre-sync receiver docked inside the mouse body for ease of transport.
- The mouse is finished with the same easy-to-clean silicon rubber surface as the keyboard, offers dust and water resistance for cleaning with ease.

The ideal solution for meeting OSHA requirements and protecting worker health

- Keyboard is submersible and mouse washable with industrial and hospital-approved non-abrasive cleansers and disinfectant, preventing infectious bacteria growth and spreading, saving cleaning time and protecting worker health.
- The keyboard is tested to IP68 international standard, insuring that it is sealed to airborne contaminants and is 100% waterproof and fully submersible.
- The wireless mouse is tested to international standard IP65, insuring that it is sealed to airborne contaminants and impervious to pressure jets of water from all directions.
